Since 1927

CRAFTSMANSHIP DATING BACK TO 1927

# Our History

## Azzurri | CASA

Since 1927

**1927**  
1st Generation

Born into an Italian Family from Udine in the northern region of Italy, Antonio Saciloto, a Carpenter with refined skills, never imagined that his love for the trade would continue long after he was gone.

Antonio built the business on the passion and drive to provide for his family while doing what he enjoyed most. Later, the family moved to Brazil, where Mr. Saciloto continued improving his knowledge of wood-working and fine furniture manufacturing. In addition, he enjoyed passing along the inside of wood-working to his son, Jose Saciloto.

**1974**  
2nd Generation

Jose Saciloto started to work in one of the largest cabinetry and office furniture manufacturers in Brazil as CEO and developed new designs, managing over 150 employees.

Ever since, Jose has worked producing desks and fine cabinetry in the family business for more than half a century with the same intensity and passion he passed along from his father.

**1989**  
3rd Generation

Jose's son Glaucio Saciloto at the age of 15 years old, joined his father in the manufacturer.

He learned all the secrets of the trade from his father and help to develop a computerized system for designs and improved production.

Glaucio also helped with the implementation of new machinery with one of the first Biesse CNC machine in Brazil.

In 1996 Glaucio moved to USA to start a new professional life.

**2003**  
USA

In 2003, Carlos Sampaio, a natural leader, and an entrepreneur, partnered with Glaucio Saciloto and incorporated a painting business called *Color Factory*.

With Carlos Sampaio painting experience, management skills, and hard work, in only 3 years, they became the largest painting contractor in Florida with more than 300 painters.

Color Factory completed the finest projects in Florida such as: Armani Casa, Fendi Chateau, Brickell City Center, Aston Martin and others.

**2017**

*Azzurri*  
Since 1927

In October 2017, due to many demands from clients requesting them to perform other trades, followed by the knowledge and clientele they built in 15 years, they decided to bring the family manufacturer experience and tradition to the USA market.

Keeping high-quality standards, *Azzurri Kitchens* Manufacture was founded in Deerfield Beach, FL, with a state-of-the-art CNC process, building custom European design cabinetry in the USA.

Now for almost **100 YEARS** of tradition, they have produced quality furniture, cabinetry and millwork in South America, Europe, and USA.

**2020**

Later in 2020, the company became an authorized reseller of high-end appliances and countertops and started developing high-end retail stores across the nation.

*Azzurri Kitchens* completed 356 Custom Kitchens and 900 Bathrooms in Miami for an impressive project.

Additionally, the first store was opened in Boca Raton, Florida, the *Azzurri Boca Raton*.

**2022**

*Azzurri* | CASA

In 2022 the Azzurri become *Azzurri Casa*. The stores offer a wide range of products with custom cabinetry, countertops, appliances, and high-end furniture, presenting a complete design package for our customers.

*Azzurri Casa* becomes the first company to place custom cabinetry in a luxury mall.

Since the launch of *Azzurri Casa* stores, the company has focused its expansion into the United States. As a result, new stores opened in Houston, TX, Washington DC, and 2023 Boston, MA and another 15 stores in the near future.

# PHILOSOPHY

Passion – the most important prerequisite for designing a high-quality living space. We develop demanding kitchen solutions with a hint of sensuality plus a fine note of unique design. To do so, we use only the best ingredients: the most precious materials, innovative technology and ingenious details. The result is well-thought-out kitchen systems for kitchens with clear concepts, aesthetic shapes and useful functions. An irresistible setting for cooking, living and enjoying.

## Filosofía

Pasión – el mejor requisito para un diseño de espacios habitables de alta calidad. Desarrollamos soluciones de cocina sofisticada con un toque de sensualidad y un toque fino de diseños inconfundible. Utilizamos sólo los mejores ingredientes – materiales más nobles, tecnología innovadora y detalles ingeniosos. El resultado son sistemas sofisticados para muebles de cocina, con un concepto claro, formas estéticas y funciones útiles. Una escenificación con especial irresistible para cocinar, vivir y disfrutar.

## Filosofia

La passione è senz'altro il presupposto fondamentale per progettare spazi abitativi di qualità. Sviluppiamo soluzioni pretenziose per cucine, aggiungendo un tocco di sensualità e accenti raffinati, per garantire design unici. Impieghiamo solo i migliori componenti: materiali pregiati, una tecnica innovativa e dettagli sofisticati. Il risultato è sistemi ben pensati per cucine con un concetto chiaro, forme estetiche e funzioni utili. Un design irresistibile per cucinare, vivere e godersi a pieno la cucina.

## Filosofi

Køkkenet er midtpunktet i ethvert hjem som et samlingssted, hvor man både nyder måltiderne og fællesskabet og hygger sammen. Det skal opfylde store krav – det skal både være slidstærkt og holdbart, og det skal kunne fungere problemfrit også efter mange år. Derfor satser vi udelukkende på kvalitetsmaterialer og førsteklasses forarbejdning – eksempelvis den innovative kantbelægning „PUResist“, der giver optimal beskyttelse mod fugtindtrængen. Ved vores køkkensystemer er en udsøgt optik og håndværksmæssig topkvalitet en selvfølge, så madlavning bliver en god oplevelse.

# MODERNITY

Aesthetic, design-orientated, modern. The "Modernity" kitchen programme is clear and functional in appearance. At the forefront are clear structures with fronts to loosen up the overall appearance, as well as colour variations.

## Modernidad

Estéticos, orientados al diseño y modernos. Los programas de cocina del apartado "Modernidad" se presentan de forma clara y funcional. En primer término se persiguen estructuras claras con frentes informales y variaciones cromáticas.

## Modernità

Orientati al design, estetici, moderni. I programmi di cucine sotto la rubrica «Moderne» si presentano nella loro essenzialità e funzionalità. In primo piano vi sono strutture chiare, con frontali ariosi e variazioni cromatiche.

## Moderne

Æstetisk, designorienteret, moderne. Køkkenprogrammerne i rubrikken „Moderne“ præsenterer sig klart og funktionelt. Der er sat fokus på klare strukturer med lette fronter og farvemæssige variationer.

# TRANSITIONAL

Many individuals who like classic design elements without the fussiness of traditional decor — or the coldness of modern style — may like transitional styles. In addition, those who find modern style too sterile or cold-looking may gravitate toward the slightly warmer transitional style. It's a sophisticated style that still feels approachable.

Ultimately, if you find you like elements of both classic and contemporary styles, this is the style for you.

# CUSTOM CLOSETS

Made in Milan - Italy

ZEN Laminatto Diamond

ONESKIN Cashemere Super Matte

SKIN Spaziale Bronzo

# HANDLELESS

The essential is invisible. The simple clarity of these pared-down kitchens is expressed in straight lines, in reduction down to the essential, and in precision. Plain, generously designed fronts, elegant materials and innovative technology are the trademarks of this contemporary kitchen architecture and facilitate individual forms of living and furnishing.

## Sin tiradores

Lo esencial es invisible. La sencilla claridad de estas estéticamente reducidas cocinas se hace notar en la rectitud, la reducción a lo esencial y en la precisión. Frentes amplios y sencillos, materiales nobles y técnica innovadora son los distintivos de esta arquitectura de cocina moderna que rinde homenaje a nuevas formas individuales del hogar y del amueblamiento.

## Senza maniglie

l'essenziale non è visibile. La semplice chiarezza di queste cucine esteticamente minimalizzate si esprime nelle linee diritte, nella riduzione all'essenziale e nella precisione. Frontali semplici e realizzati in forme ampie, materiali raffinati e tecnica innovativa sono le caratteristiche distintive di questa moderna architettura per cucine che tiene conto delle nuove forme individuali dell'abitare e dell'arredare.

## Grebsløs

Det væsentlige er usynligt. Den enkle klarhed ved disse æstetisk reducerede køkkener kommer til udtryk i lige linjer, reducere til det væsentlige og præcision. Enkle, stort dimensionerede fronter, ædle materialer og innovativ teknik er kendetegnende for denne moderne køkkenarkitektur, der tager højde for nye, individuelle former for livsstil og indretning.

# CUSTOM WINE STORAGE AND BAR

GOLA Profile Stainless Steel

CLEAF Esperia Doha

# MODERN COUNTRY

An ambience that lifts the heart: the country-house style exudes warmth and comfort more than any other interior design style. High quality materials and skilled craftsmanship with loving details such as shelves with utensil boxes, wall units with plate racks and columns reflect the peace and comfort of rural life, making the kitchen the desirable heart of the home. Here, putting a new interpretation on old values, means blending the human touch and modern kitchen technology in perfect harmony.

## Modern Country

Un ambiente que ensancha el corazón: Como ningún otro, el estilo rústico transmite una sensación de calidez y recogimiento. Materiales de calidad con acabado artesanal y detalles llenos de cariño, como estanterías con legumbres, armarios altos con estantes para platos o columnas perfiladas reflejan la calma y comodidad de la vida rural, convirtiendo la cocina en un atractivo centro de atención de la casa. La reinterpretación de valores ancestrales significa aquí calidez humana y técnica de cocina moderna en perfecta armonía.

## Modern Country

Un ambiente che apre il cuore: lo stile country trasmette come nessun altro tipo di arredamento calore ed accoglienza. Pregiati materiali in esecuzione artigianale e graziosi dettagli come scaffali con cassettoni, pensili con mensole portapiatti o colonne profilate rispecchiano la tranquillità e la piacevolezza della vita di campagna e fanno della cucina un amato centro della casa. Interpretare in modo nuovo gli antichi valori significa qui calore umano e tecnica di cucina moderna in perfetta armonia.

## Modern Country

Et miljø, der taler til hjertet: Som ingen anden indretningsstil udstråler country stilen varme og hygge. Førsteklasses materialer og velovervejede detaljer som for eksempel reoler med skuffer, overskabe med tallerkenrækker eller profilsøjler afspejler roen og velværet ved landlivet og gør køkkenet til husets foretrukne samlingspunkt. At nytolke gamle værdier vil her sige at kombinere menneskelig varme med moderne køkkentechnik til perfekt harmoni.

SYNCRON Anniversary Oak 3

# MODERN EUROPEAN

European-style kitchens are sometimes considered to be a cross between mid-century modern, clean lines of Swedish or Nordic design, with a little bit of traditional thrown in. Euro-style has clean lines, flat surfaces, and hidden hardware.

Cabinet doors are flush, simple, with no visible hinges or pulls. Lines are more contemporary, but choices of materials and layout could warm up the space. Natural materials can be used, but often you will see the use of laminates, plastics, and ceramics for a clean, easy-care feel. Adding a pop of color can warm up and individualize your space.

Flooring in the European-style kitchen, should also be clean lines. However, most flooring choices can fall into this category. If you like French Country Euro-style, opt for something like terra-cotta tiles, or for more modern lines, traditional ceramic or other flooring materials that warm up the space, have clean lines, and are welcoming.

Many European-style kitchens also incorporate dining into the space. The spaces are normally smaller than traditional American kitchens so the dining furniture should be scaled accordingly. Materials can be wood, plastic, or even metal and offer the same clean look and efficient style as the rest of the kitchen.

MEET THE  
STRAIGHTLINE  
FAMILY

Birch brings a clean, modern look to the StraightLine organization system. This classic wood complements the design of virtually any drawer box or pantry pullout.

StraightLine walnut adds a rich, refined look to your kitchen. With warm tones and strong grains, walnut will make you want to open your drawers and pantries again and again in admiration.

# DETAILS

The kitchen is, and always will be, a space for working, too. As anybody who spends a lot of time in the kitchen will know, it is important that everything is both in easy reach and has its own place. Orderliness, clarity and ergonomic designs mean well-thought-out functionality. Clever innovations, even for the smallest of details, help make for a carefree daily life in the kitchen. This section shows a summary of all possible accessories and fittings.

## Detalles

La cocina es y será siempre también un lugar de trabajo. Y los que trabajan mucho en la cocina saben apreciar los recorridos cortos y las cosas en su lugar. Orden, claridad y diseño ergonómico significan funcionalidad avanzada. Es así como las innovaciones inteligentes incluso en los pequeños detalles hacen posible una rutina despreocupada en la cocina. Esta columna muestra de forma resumida y clara todas las opciones de mobiliario.

## Dettagli

La cucina è e resta, ciononostante, un luogo di lavoro. Chi opera in cucina apprezza il valore di uno spazio ben strutturato, in cui tutto trova il proprio posto e risulta essere facilmente raggiungibile. Ordine, organizzazione e un design ergonomico danno vita ad una funzionalità ben pensata. L'innovazione garantisce, anche nei dettagli, una vita spensierata in cucina. La presente rubrica fornisce una panoramica di tutte le possibilità di arredo.

## Detaljer

Køkkenet er og bliver først og fremmest en arbejdsplads. Og den, der arbejder meget i køkkenet, sætter pris på korte veje og at tingene har deres rette plads. Orden, overskuelighed og ergonomisk design betyder gennemtænkt funktionalitet. Kloge nyskabelser sørger for, at hverdagen i køkkenet bliver ubesværet, også i de små detaljer. Denne rubrik viser en samlet oversigt over alle udstyrsmuligheder.

# CABINET PHILOSOPHY

## Cabinet Philosophy

Our furniture does not make an impression just with a high-quality look. They are especially easy to maintain featuring the best interior durability. Furthermore, they stand out with their colour consistency between the lower section and the upper cabinets; 16 mm material thickness for the panels and 19 mm for the base, offering excellence in every detail. The interior finish for our 8 cabinet finishes is natural white. The designer cabinet colours are available either in Anthracite or Lava Grey ; However, the interior and exterior are available to match the same interior finish colour.

## Filosofía del armazón

Nuestros armazones no sólo se caracterizan por tener un aspecto de alta calidad y fácil cuidado, sino que además ofrecen un mejor mantenimiento y protección de los mismos. Además de esto, la base del armazón convence por la igualdad de color en los armarios colgantes. Y con un espesor del material de 16mm para los laterales y 19mm para la base, demuestran la perfección hasta el mínimo detalle. La decoración interna de nuestros 8 cuerpos es blanco natural. No obstante, para los colores del cuerpo con diseño en Anthracite y Lava Grey el interior está disponible a juego con el exterior.

## Filosofia della scocca

Non solo i nostri corpi brillano per il loro aspetto prezioso ma sono anche di facile manutenzione, il che agevola la protezione del corpo stesso. Il fondo per dei pensili si abbina perfettamente al colore del corpo degli altri mobili. Grazie allo spessore di 16 mm di spessore sui lati e 19 mm sul fondo, questi mobili si presentano perfetti fin nel dettaglio. La finitura interna di 8 dei nostri corpi è bianco naturale. Per il corpo design sono disponibili due colori: grigio lava e antracite, sia per l'interno che per l'esterno.

## Korpusfilosofi

Vores korpuser brillerer ikke kun med en førsteklasses optik. De er også specielt rengøringsvenlige, hvilket er den bedste beskyttelse for korpuset. Det virker desuden tiltalende, at bundens farve stemmer overens med overskabene. Og med en materialetykkelse på 16 mm på siderne og 19 mm i bunden betyder det perfektion ned til mindste detalje. Den indvendige dekor i 8 af vores korpuser er naturhvid. Ved designkorpuserne Lavagrå fås de indvendige dele magen til de udvendige – med indvendige dekor i samme farve.

## Standard Colors

ANTHRACITE AND SUNNY WHITE

#### Top/Bottom shelf 19 mm thick

The inset shelves and also the bottom/top panels are 19 mm thick and withstand high loads.

#### Fondo/Estante superior 19 mm de grosor

No solo las baldas tienen un espesor de 19 mm, también los fondos/estante superior de armario están provistos de eso, por lo que soportan cargas muy elevadas.

#### Parte superiore/fondo 19 mm di spessore

Non solo i ripiani ma anche il fondo/parte superiore presenta uno spessore di 19 mm, in grado pertanto di sopportare carichi elevati.

#### Top- og bundplade 19 mm tykke

Ikke blot hylderne, men også top og bund er 19 mm tykke og kan holde til stor belastning..

#### 35 cm carcass depth

Extra deep upper cabinets also offer space for large bowls and pizza plates (interior depth 33 cm).

#### Profundidad del armazón 35 cm

Los armarios colgantes de gran profundidad también ofrecen espacio para grandes fuentes y platos de pizza (profundidad interior 33 cm).

#### Profondità della scocca 35 cm

I pensili molto profondi offrono spazio per grandi insalatiere e piatti da pizza (profondità interna di 33 cm).

#### Korpusdybde 35 cm

Ekstra dybde overskabe giver også plads til store skåle og pizzatallerkener (indvendig dybde 33 cm)

#### Metal shelf support with safety pin

The shelves are particularly hard-wearing and can be adjusted individually via a row of holes in the body.

#### Soporte de estantes metálico con seguro de extracción

Los suelos son sumamente resistentes y, gracias a una hilera de orificios en el armazón, pueden ajustarse individualmente.

#### Supporto per ripiano metallico con dispositivo di sicurezza

I ripiani sono molto resistenti e possono essere regolati individualmente nel corpo grazie ad una serie di fori.

#### Hyldebærer med væltesikring

Hylderne er specielt belastbare og kan placeres individuelt i hulrækken i korpus

#### Back panel with acrylate

The coated 3 mm solid fibre back panel is screwed into the cabinet and is additionally sealed at the sides with acrylate for optimum noise absorption.

#### Traseras

El panel trasero revestido de fibra dura de 3 mm se atornilla al cuerpo y adicionalmente se insonoriza lateralmente con acrilato para un aislamiento acústico estupendo.

#### Pareti posteriori

Il pannello posteriore a fibra dura rivestito viene collegato a vite per 3 mm con il corpo e poi sigillato sui lati con dell'acrilato, che garantisce un ottimale isolamento acustico.

#### Bagvæg med acrylat

Den coatede HDF/MDF-plade 3 mm skrues sammen med korpus og er desuden tætnet i siden med acrylat for at opnå en optimal støjdemping.

The design hinge with integrated Silent System:  
**Sensys**

**Profiled railing**

At product range ARHandleless, the bottom shelf has a cross-banded moulding for opening the hanging cupboard.

**Encolada sobre el perfil de regleta**

Para abrir los armarios altos de la serie sin tiradores (ART), el fondo del armario cuenta con un listón de perfil encolado.

**Gola fissata alla scocca**

Per aprire i pensili alti senza maniglia (ART), il ripiano inferiore viene rinforzato con listello profilato incollato.

**Pålímet profilliste**

Bunden forsynes med en pålímet profilliste til at åbne overskabe- ne med ved grebsløse ART.

**Covering wall unit suspension**

The cupboard bracket is located out of sight behind back wall of the hanging cupboard and can be adjusted in three dimensions. Covering caps inside the cupboard cover the adjustment screws.

**Colgador de muebles altos**

Los dispositivos de suspensión de los armarios se encuentran escondidos tras la pared posterior del armario alto y se pueden ajustar en tres dimensiones. Las tapas de cubierta en el interior del armario ocultan los tornillos de ajuste.

**Fissaggio dei pensili coperto**

La sospensione è invisibile dietro la parete posteriore del pensile alto ed è regolabile in tre dimensioni. I cappucci di copertura coprono le viti di regolazione all'interno del pensile.

**Skjult skabsophæng**

Skabsophænget befinder sig skjult bag overskabets bagvæg og kan justeres tredimensionelt. Blændpropper indvendigt i skabet skjuler justerskruerne.

Mounting plate compatible with Intermat hinges

Integrated depth adjustment for millimetre precision door alignment by direct adjustment

Integrated overlay adjustment with stop limiter for perfect gap alignment

Cam height adjustment for huge time savings

Perfectly coordinated design of hinge and mounting plate

Shallow cup depth also permits particularly thin fronts

# PULL-OUTS BASE and TALL UNITS

## Pull-outs | Base units

The pull-outs are available in two colours and can be specified in the same colours as the design cabinet colour; either lava grey or champagne. The metal frame is fitted with an elegant and strong (edge radius 1 mm) powder coated, metal back panel. The easy wipe inner molding creates the pull-outs very easy cleaning. The synchronising mechanism guarantees high performance running and side stability. The eccentric height adjustment allows the pull-outs to be adjusted three dimensionally. The fully extractable lead rails are fitted with soft closing as standard.

## Gavetas | Muebles bajos

Los cajones y gavetas están disponibles en dos colores y pueden planificarse a juego con el armazón de diseño Lava Gris y Champán gracias a su revestimiento en polvo. El cajón está equipado con un estético y robusto panel metálico posterior. Gracias a su acabado redondeado en los bordes interiores, se facilita la limpieza y el cuidado de los mismos. La sincronización de las guías extraíbles garantiza una elevada suavidad de marcha y una estabilidad lateral. Debido al ajuste de altura excéntrico, los cajones se pueden regular tridimensionalmente. Los rieles de guía están preparados para la extensión total, con un mecanismo de cierre suave y autofreno.

## Cestoni | Basi

I sistemi ad estrazione sono disponibili in due finiture, ordinabili negli stessi colori del corpo design: grigio lava e champagne. La struttura in metallo include un pannello posteriore sempre in metallo, elegante, stabile (raggio del bordo di 1 mm) e verniciato a polveri. Grazie alla scanalatura interna, i sistemi ad estrazione sono facili da pulire. La sincronizzazione garantisce alte prestazioni in termini di scorrevolezza e di stabilità laterale. La regolazione dell'altezza ad eccentrico permette ai sistemi di estrazione di essere regolati sulle 3 dimensioni spaziali. Le guide ad estrazione completa con chiusura automatica sono dotate di un sistema ammortizzato.

## Udtræk | Underskabe

Udtrækkene findes i to farver og kan leveres i samme farve som designkorpuserne Lavagrå og Champagner. Metalrammen (kantradius 1 mm) er forsynet med en smuk og stabil, pulverlakeret metalbagvæg. Med afrundede hjørner indvendig er udtrækkene meget rengøringsvenlige. Synchroniseringen garanterer letløb og sidestabilitet. På grund af højdejusteringen med excenter kan udtrækkene indstilles tredimensionelt. Fuldudtræks styreskinnerne med selvindtræk er automatisk forsynet med SoftClose.

**KESSEBÖHMER**  
CLEVER STORAGE

Base unit with interior drawer and carrier  
The carrier can be integrated into the recessed grip of the metal panel.

Armario bajo con cajón interior y pitón de arrastre

El tope de arrastre puede integrarse en el tirador o el embellecedor de metal.

Base con cassetto interno e traino per cassetto  
Il sistema di trasporto può essere integrato nella maniglia incassata del pannello metallico.

Underskab med indvendig skuffe og tagere

Driveren kan i det forsænkede greb på metalpanelet integreres.

Base unit with interior drawer with metal- or Glass panel  
The inner pull-out can be supplied with a glass front for a small additional charge.

Armario bajo con cajón interior con frente de metal o frente de cristal  
Por una pequeña tasa adicional, el cajón interior puede suministrarse con embellecedor de vidrio.

Base con cassetto interno con fascia in metallo o fascia in vetro  
Con un supplemento minimo, il cassetto interno può essere dotato di pannello in vetro.

Underskab med indvendig skuffe med metal- eller glaspanel  
Mod en mindre merpris kan den indvendige skuffe leveres med glaspanel.

# INTERIOR ORGANISATION SYSTEM

## Interior organisation system

Whether base units with solid wood inside organisation system and cutlery trays or integrated, additional drawers – innovative storage space concepts simplify your work and alleviate organisation.

## Organización interior

Ya sean las gavetas de madera maciza con organización interior, o los portacubiertos, o los cajones adicionales integrados. Los innovadores conceptos de espacio de almacenaje facilitan el trabajo y consiguen el orden.

## Sistema di organizzazione interno

Che si tratti di cassetti ad estrazione totale in legno massello con inserti per le posate, o di cassetti integrati supplementari, l'organizzazione degli spazi semplifica la vita e crea ordine.

## Indretning

Uanset om fuldudtræk er med indretning af massivt træ og bestikindsatse eller integrerede ekstra sokkelskuffer – innovative opbevaringskoncepter gør arbejdet nemmere og skaber hurtigt orden og overblik.

### Interior organisation system **StraightLine**

Whether fully extractable sections with inner fittings of heavy wood and cutlery trays or integrated additional pull-outs – innovative storage concepts make work easier and achieve tidiness quickly and simply.

### Organización interior **StraightLine**

Tanto los cajones de extensión total con organización interior de madera maciza y cuberteros como los cajones adicionalmente integrados son conceptos de almacenaje innovadores que facilitan el trabajo y logran el orden rápida y sencillamente.

### Sistema di organizzazione interno

#### **StraightLine**

Sia con sistemi ad estrazione completa con interno in legno massello e inserti per le posate che con l'integrazione di cassetti aggiuntivi, gli innovativi concetti di spazio da dispensa facilitano il lavoro e consentono un'organizzazione facile e veloce.

#### Skuffeindretning **StraightLine**

Skuffeindretningssystemet MOVE af massivt træ giver mange anvendelsesmuligheder takket være de variable elementer – fire rum i tre højder og to forskellige grundflader. Bestikindsats, folieafroller, knivholdere og udligningselementer runder konceptet af, og en antiskridmätte sørger for, at tingene bliver liggende på deres plads.

Sable Great    Sable Fittipaldi    Sable De Angelis    Sable Tarquini    Sable Oakfield

Sable Narrow    Sherwood Richmond Park    Sherwood Dartmoor

### STANDARD DIMENSIONS

Length 110 inches  
Width 81 inches  
Thickness 18 mm and 8 mm

\*Carb 2 Compliant. TSCA TITLE VI Certified

### EDGE BANDING

1 mm Matching Edge Banding available in all colors

23mm width

43mm width

Made in Italy 

Noce Athens    Noce Pireus    Rovere Metz    Rovere Aalst    Rovere Rock Bianco

Olmo Jerez    Olmo Jerez Grigio    Olmo Jerez Scuro    Olmo Tafira    Rovere Rock

Tessuto Grigio    Tessuto Grisaglia

### STANDARD DIMENSIONS

Length 110 inches  
Width 81 inches  
Thickness 18 mm

\*Carb 2 Compliant. TSCA TITLE VI Certified

### EDGE BANDING

1 mm Matching Edge Banding available in all colors

23mm width

43mm width

Made in Italy 

Handles

There are many handle systems, apart from knobs and grips, which are supplied to match cabinet widths.

Tiradores

Además de botones y tiradores, hay muchos sistemas de agarre, que se suministran conforme a las anchuras del armario.

Maniglie

Oltre a pomelli e maniglie, sono possibili tanti sistemi di maniglia, abbinabili in base alla larghezza del armadi.

Greb

Ud over knopper og greb findes mange grebssystemer, der leveres passende til skabsbredderne.

# Dekton®

by Cosentino®

## Innovation applied to design

Dekton® is composed of a sophisticated blend of over 20 minerals extracted from nature. Its production process is the result of years of R&D in the manufacturing of glass, state-of-the-art porcelain, and quartz surfaces.

Dekton® is created through an exclusive sintering process which creates an ultracompact slab with reduced porosity and the absence of micro-defects.

# Silestone®

by Cosentino

## The Ultimate Mineral HybriQ Surface.

Silestone® is a hybrid surface composed of premium minerals, recycled materials, and quartz, designed to dress spaces with color and texture.

### Silestone® advantages.

Silestone® is extremely durable in kitchens, bathrooms and other spaces exposed to constant activity and use. Additionally, it offers a limitless range of colors and textures.

Silestone® has many advantages, including minimal maintenance, high resistance to stains and scratches, and a low fluid absorption rate. This resistance to fluids and its minimal joints make Silestone® the ideal solution for places where liquids are present. Silestone® is resistant and allows for prolonged enjoyment over time.

The properties of Silestone® are the result of constant years of innovation that guarantee maximum hygiene and safety.

### Sintered Particle Technology

Dekton® uses an exclusive sintered particle technology (SPT) which sinters mineral particles, bonding and compacting their internal structure. This innovative technological process mimics and accelerates the process natural stone undergoes when exposed to high pressure and temperatures for millenia.

- The furnace has a length of 180 meters (590 ft).
- Temperatures reach approximately 1250°C (2300°F).
- Total processing time depends on the thickness of the slab (about 4 hours).

### Safety in facades and cladding

In order to reinforce safety in ventilated facades and interior cladding, there is the possibility of adhering a safety mesh behind the Dekton® slab, specially developed to prevent falls due to breakage. It is a 300 g/m<sup>2</sup> fiberglass mesh adhered to the material with epoxy resin.

### Acid and Scratch Resistant

Silestone® has a high level of scratch and scuff resistance. impacts, as well as to external aggressions and acids common in daily kitchen use.

### Stain Resistance

Silestone® is a non-porous surface that is highly resistant to stains from coffee, wine, lemon juice, oil, vinegar, makeup and many other everyday products.

### Impact Resistant

The high impact resistance of Silestone® allows the handling of hard objects (pots, pans, trays, etc.) with total peace of mind.
